

Join the Procura Network

The Optum Procura Network is a non-risk PPO Workers' Compensation and Auto No-Fault Network that offers access to quality health care in your area. We invite you to join this network of physicians, specialists, physical therapists, chiropractors, home health providers, hospitals and clinics to provide treatments for workers' compensation and auto no-fault injuries.

Our vast list of payer clients rely on the Procura network for quality providers to deliver clinically-appropriate care for their injured persons. They also expect quality processes to deliver accurate and timely reimbursement to the providers for the services delivered.

THE OPTUM PROCURA NETWORK DELIVERS IT ALL.

As a contracted provider with the Optum Procura Network you can...

- Establish long-term relationships with patients who may choose to use you for other care services beyond their workers' compensation injury
- Support employers in your community

For the contracted providers in our network Optum will...

- Work closely with adjusters and nurse case managers (NCM) to refer injured persons to contracted providers
- List your practice in our provider look-up tool used by adjusters, NCM and field-based case managers
- Recommend provider locations to clients on panel cards (We produce over 10,000 cards each year)
- Deliver accurate and timely reimbursement
- Provide exceptional customer service

The Optum Difference

- As part of UnitedHealth Group we are an organization dedicated to healthier lives and a better health system
- We are a diversified health and well-being company who has offered managed care and network services for more than 20 years
- We have more than 130 PPO clients across the nation and process ~916,000 bills per month

20 YEARS OF NETWORK EXPERIENCE
